## **Projects Summary**

**The “Manav Sampada”** has been developed with the objectives of Good and Green Governance. The application is a complete HR solution for massive manpower resource of the Government of Himachal Pradesh and provides integration with various applications as e-Salary, e-Gatg , e-Samadhan , e-Sameesha, e-Attendance, e-Sanchalan, e-PDS along with user authentication and master data. This application provides features like Online ACR, APR, Salary and Compensation Management to the departments. It creates an HR related databases for analyzing the skill set of each employee by collecting the information like salary, skill set, compensation, personal details, demographic information, and other detailed relevant information. The online eService book on the Internet supports Governments effort to bring transparency in a user-friendly interface for use by both the department and Government employees

The eHRMS Application was developed as the product model for providing a generalized human resource management solution for Government Departments to help them in taking right decisions at right time and for proper monitoring, manpower planning, recruitments, Postings, Promotion and Transfer based on employee skill sets. The project was initially implemented in the State of Himachal Pradesh which resulted in improvised management of human resources. “Manav Sampada” was not only the solution to manpower planning but its integration with other applications extended its ambit to various other Government G2G,G2E and G2C services. The Himachal Model was further strengthened by the DietY, Government of India for its nationwide replication as Product Model with enhanced features as per eGov Standards. The efforts were successfully replicated in the State of Jharkhand, Bihar Forest Department and Human Right Commission, New Delhi, Punjab,Maharashtra and initial discussion are on with State of UP, Chandigarh and Telengana.

**ePDS- ERCMS-** Ration Card Digitization Application - Customized by NIC-HP Team as per the state specific requirements. (URL: [//admis.hp.nic.in/himpds](http://admis.hp.nic.in/himpds)). The application is further enhanced with dynamic dashboards, Online UID authentication and integration with SIMS, PMIS databases. It provides the

complete process flow based features for ration card digitization, verification by the inspectors, modification and printing of the ration cards. The user can drill down reports to lowest level and can view family wise ration card detail of any FPS. The present status of ration card digitization is as follow:

**WorkMIS** – Scheme monitoring System for IPH Departments which is chosen for replication in HP PWD Department by the World Bank for better monitoring of PWD Works. Water Bill and Energy Bills MIS for HP IPH the additional modules were developed in the WorkMIS application to cater the need for Water and Energy billing.

**OHRS is a web enabled application** which provides online availability status of accommodations and instant online room reservation facility in Hotels of HPTDC to the prospective Guests/ Tourists. It offers Services like availability status and Instant direct reservation of accommodation. Customers can also send cancellation requests as well as provisional booking requests online. Immediate confirmation of bookings/cancellations using SMS, email messages. Quick refunds for cancellations Integrated with multiple payment Gateways for payments by credit card/ debit card/ net banking modes. Integrated with all popular Travel portals such as Cleartrip.com, MakeMyTrip, Yatra.com, Travelguru, goIbibo etc. for real-time confirmed online bookings through their portals. Modules to manage Master Data such as Popular destinations, Hotels, Type of accommodations, Category/ period wise room tariff, promotional offers, application of promotional offers to selected room types in selected hotels, User and role management. Availability position and occupancy charts for each hotel .Exhaustive analytic charts .

**New Education Policy – NEP Survey 2015** - The users were created upto Panchayat level for local bodies participation in the NEP Survey to allow them to upload their resolutions in the MyGov Portal
