PREFACE

The Civil Registration System (CRS) may be defined as a unified process of continuous, permanent and compulsory recording of the vital events and characteristics thereof, as per legal requirements in the country. In India, the Civil Registration System covers the registration of births and deaths. It provides the best source of information on the vital rates at all levels. This issue of the Report on 'Vital Statistics of the state based on the Civil Registration System' for the year 2018 provides an overview of the working of the Civil Registration System (CRS) in the state and presents a compilation of data on online registered births, deaths, infant deaths and stillbirths with rural-urban & sex-wise break-up and sex ratio at birth based on Civil Registration Records. For individuals, civil registration records of birth - provide legal proof of identity and civil status, including name, age, parentage, place of birth and nationality. These records, in turn, affect a wide variety of rights to which an individual may be entitled especially rights dependent on age, citizenship, or ancestry for inheritance purpose. Death records provide legal evidence relevant to claims to the inheritance of property, insurance claims, obtaining probate or succession, releasing gratuity, provident fund claims and deleting a name from ration card, voters list, family registers, etc.

Vital statistics are also used for administrative planning in other areas, such as housing, education, social security, and insurance. Planning for production of consumer goods and services often takes vital statistics data into consideration.

Vital statistics are important at the international level for providing tools for evaluation of differences between countries and regions of the world, and for monitoring of many demographic characteristics that reflect changes in social, economic and political conditions.

The data source for the report is the Online Registration of Birth & Death events done by the Registrars of Births & Deaths of State. I take this opportunity to express my sincere gratitude to all the Registrars of Births & Deaths of State for their kind cooperation and doing online registration on the CRS web portal.

(* Online birth/death registration is effective in the state from Nov. 2015 in the State)

General Response of the Public towards RBD Act

The registration of Birth & Death is not new for the State of Himachal Pradesh. People are very conscious to get the events registered occurred even before the implementation of Act. However, some new provisions have also been made and amendments/ modifications have also been done to facilitate the masses. It has been made mandatory to issue a free certificate (Under Section12).

DIFFICULTIES ENCOUNTERED IN THE IMPLEMENTATION OF THIS ACT

Since the Act is being implemented at grass-root level by the Panchayat and thereafter by Block Development Officer, It is noticed that some of the Local Registrars-cum-Panchayat Secretaries in concerned Panchayats are not posting vital events (birth & death) online regularly. With active co-operation of Rural Development & Panchayati Raj and Urban Development Departments, the numbers of non-reporting units have been minimized. Due to network issue, online registration of vitals events could not be implemented in some of the remote areas of the State. Moreover, shortage of manpower in most of the health institutions across the State including State headquarter is also affecting the routine working of Online CRS which is a big hurdle in the way of achieving desired targets for registration of vital events. It is noticed that Block Development Officers (BDOs) who have also been notified as Specified Officer under RBD Act, 1969 are not contributing effectively resulting which online registration and reporting of vital events of the Panchayats are not being done properly. So, performance in some Blocks is not satisfactory which needs to be accelerated.

There have been no financial assistances from Center & State Govt. to meet out the expenditure towards Information, Education & Communication (IEC) and other CRS related activities during the year 2018. It is required to have sufficient funds/budget for smooth and effective implementation of the Civil Registration System in the State.
