DEPARTMENT OF FISHERIES, HIMACHAL PRADESH

INTRODUCTION

Angling is used for fishing with an “angle” which means a “fish hook”. World over, angling is a popular recreational hobby which help in relieving stress and enhances concentration. In our beautiful state the pleasure of angling doubles manifold with interlocking, snow capped mountains, dense conifers and gushing rivers and rivulets. Anglers from within the state and outside visit Himachal to enjoy their luck with hook and line. In an effort to make their stay comfortable and memorable, Department of Fisheries Himachal Pradesh has setup rest houses and angler lodges at various strategic angling spots all over the state.
