Jointly organized by

The Colombo Plan

and

The Government of the Republic of Indonesia

Implemented by

Non-Aligned Movement Centre for South-South Technical Cooperation (NAM CSSTC)

#### 1. BACKGROUND

#### The Colombo Plan

The Colombo Plan for Cooperative Economic and Social Development in Asia and the Pacific is a unique inter-governmental organization providing development assistance under the "Planning for Prosperity" motto and the concept of self-help where member countries provide assistance to one another in socio-economic development.

The Colombo Plan was conceived at the Commonwealth Conference on Foreign Affairs held in Colombo, Ceylon (now Sri Lanka) in January 1950 and was established on 1 July 1951 as a cooperative venture for economic and social advancement of the people of South and Southeast Asia. It has grown from the founding group of seven Commonwealth nations - Australia, Britain, Canada, Ceylon, India, New Zealand and Pakistan — to 26 including non-Commonwealth and countries belonging to the Association of South-East Asian Nations (ASEAN) and South Asian Association for Regional Cooperation (SAARC). Current Colombo Plan member countries are Afghanistan, Australia, Bangladesh, Bhutan, Brunei, Fiji, India, Indonesia, Iran, Japan, Republic of Korea, Lao PDR, Malaysia, Maldives, Mongolia, Myanmar, Nepal, New Zealand, Pakistan, Papua New Guinea, the Philippines, Singapore, Sri Lanka, Thailand, United States of America and Vietnam.

In December 1977 the Colombo Plan for Cooperative Economic Development in South and Southeast Asia was changed to **The Colombo Plan for Cooperative Economic and Social Development** in Asia and the Pacific, to reflect the expanded geographical composition of its enhanced membership and the scope of its activities. The primary focus of all Colombo Plan activities is human resources development in the Asia-Pacific region.

Over the years, the programme content of the Colombo Plan has been adjusted to respond to the needs of member countries in a fast changing economic environment. In the early years, the training programmes were more of a long-term nature whilst the current programmes are established to provide advance skills and experience sharing, aimed at arriving at the best practices in different fields of economic and social activities for effective policy making and governance.

#### **Current Programmes:**

In 1995, the Colombo Plan revitalized its programmes to emphasize on short-term training courses in priority areas and promoting South-South cooperation. The current programmes of the Colombo Plan are in the areas of Public Administration and Environment including post-graduate long-term scholarships, Private Sector Development and drug demand and supply reduction in member countries. In this regard, the Colombo Plan has established four programmes

for capacity building, namely, Drug Advisory Programme, Programme for Public Administration and Environment, Long-term Scholarship Programme and Programme for Private Sector Development.

# 2. THE NON-ALIGNED MOVEMENT CENTRE FOR SOUTH-SOUTH TECHNICAL COOPERATION (NAM CSSTC)

The Non-Aligned Movement Centre for South-South Technical Cooperation (NAM CSSTC) was established in 1995 as a centre for action and pooling resources as well as a forum for dialogue to attain the development objectives of both NAM member and non-member countries. Its mission is to contribute to the acceleration and enhancement of national development by strengthening and expanding South-South technical cooperation in the context of international development cooperation. Its particular objective is to increase the capacity of developing countries in eradicating poverty and accelerating economic development through technical cooperation.

As an effort to narrow the existing gaps among developing countries, technical assistance has been considered as one of the ways and means of accelerating economic development of the less developed economies. This would include financial and technical assistance, transfer of technology, education and training facilities to improve the quality of human resources and domestic small and medium economies sector.

# 3. TRAINING PROGRAMME ON RURAL COMMUNITY-BASED MICROFINANCE DEVELOPMENT FOR THE COLOMBO PLAN/NAM MEMBER COUNTRIES

In the light of the economic challenges above and with its well-developed capacity in the field of micro finance, Indonesia has the initiative to promote microfinance as an alternative income-generation mechanism to stimulate the economic growth of developing countries. However, taking into account the close geographical proximity and the importance maintaining a sound regional economy, Indonesia consequently has developed such a mechanism of experience sharing in the Colombo Plan developing member countries.

This endeavor is in line with the Indonesian foreign policy that seeks active participation in promoting and strengthening cooperation among nations to pursue sustainable global prosperity and considers the Colombo Plan as one of its cornerstone. Whereas at a broader level, it is also appropriate to the United Nation's Millennium Development Goals (MDGs) which provide countries around the world with a basic framework of development with less poverty and hunger.

The training programme will promote rural community-based microfinance development as a means to support micro, small and medium enterprises modeled on the Balinese experience. Best practices of rural community-based institutional building which capitalise on microfinance for micro, small and

medium enterprises development will be shared. The Colombo Plan, using the development experience of Indonesia, wishes to share its knowledge and experience in capacity building in microfinance among the Colombo Plan member countries.

#### 4. OBJECTIVE

The objective of the training programme is to provide the participants with an opportunity to improve their knowledge and skills/techniques in the field of microfinance, in particular, the operational aspects of rural community-based microfinance development. The participants will have the opportunity to exchange ideas, information and experiences among themselves on policy and technical aspects of microfinance development.
