

GCPS Tangling, Kalpa, Kinnaur

Ms. Rita Bala

Ms. Rita has designed TLMs to make the teaching learning process interesting and effective. She has enhanced the learning levels of the students. If students don't understand the content, she develops content-based TLM, groups and does activity based learning to help them understand.

She has also provided learning materials to needy students of the school. Parents are kept involved and provided feedback through whatsapp. Starting nursery class in school has helped in increasing enrollment in the school. She is also developing healthy habits and hygiene in the students. Meals are served hygienically and proper sitting arrangements have been made for the students.
