Any query requiring intervention of the State Election Commissioner may be routed through the concerned Deputy Commissioner.

- On Selecting option **Map Polling Station**, for particular Block, following screen will appear:

- After selecting the particular AC its ECI polling station will appear in drop down menu. These polling station can be mapped in the selected Block with the help of following shifting keys.

- After shifting all the relevant Polling Station, click Save button after ensuring that the particular polling stations fall in the concerned Block.
- After mapping all the polling Stations to their concerned Blocks/ULB's, the list can be submitted to Block User for verification. Until and unless all the polling stations are

mapped to the Blocks and ULB's, the block user will not be in a position to view the data.

- After mapping all the polling stations, the District User can exercise the Lock option.
- The Lock option is to be executed by the District user only after ensuring that all the Polling Stations have been correctly mapped with the respective Blocks.

If some polling stations remained unused a message will appear on the screen “*Some Polling Stations are still Unused*”, therefore map all the Polling Stations only then work will proceed further.
