MALAYSIAN TECHNICAL COOPERATION PROGRAMME (MTCP)

The Malaysian Technical Cooperation Programme (MTCP) was officially launched on 7 September 1980 at the Commonwealth Heads of State Meeting in New Delhi, India, to signify Malaysia's commitment to the South-South Cooperation, in particular, the Technical Cooperation among Developing Countries (TCDC). The MTCP emphasizes on the development of human resources through the provision of training in various areas which are essential for a country's development such as agriculture, economy, finance, public management and administration, science & technology and ICT, health diplomacy, safety and security including cyber security, cultural diplomacy, social development, environment-related to SDG2030, education, industrial and technical training. Annually, Malaysia offered more than 60 technical and capacity-building programs under the MTCP, which have benefited more than 35,500 participants from 144 countries.

OBJECTIVES OF MTCP

- To share the development experience with other countries;
- To strengthen bilateral relations between Malaysia and other developing countries;
- To promote South-South Cooperation (SSC); and
- To promote technical cooperation among Developing Countries.

COURSE BACKGROUND

Good industrial manufacturing practices in healthcare products are now becoming more popular in the world. The global healthcare, food and beauty care industries estimated to reach more than USD265 billion in 2017. Increasing consumer preferences towards natural, herbal based, and HALAL products are forcing the healthcare manufacturers to change strategies to meet customer demands. With the current requirement of halal products, most Islamic country

producers of the healthcare, food and cosmetics products are now looking forward to emerging in the Syari'ah Law and requirement into the current Good Manufacturing Practice (GMP). Requirements which is, so called Islamic Manufacturing Practices (IMP). GMP is promulgated by the US Food and Drug Administration (FDA) under the authority of the Federal Food, Drug and Cosmetic Act where it also applies to ranges of pharmaceuticals, traditional herbal & medicinal products, medical devices, food, healthcare products, cosmetics, etc. This good industrial manufacturing practices also emphasize more on the World Health Organization (WHO), Pharmaceutical Inspection Cooperation Scheme (PICs) and ICH guidelines where these regulations, which have the force of law, require that manufacturers, processors, and packagers of medicinal drugs (pharmaceuticals), medical devices, herbal/traditional and as well as food industries, must take proactive steps to ensure that their products are identify, safe, pure, and effective. Islamic Manufacturing Practices will be looking at the Syari'ah Law and Requirement base on Qur'an and Hadith, but still meeting the same purpose of GMP requirement by eliminating the usage of ingredients which against the Syari'ah and must be pork-free products. This good industrial manufacturing practices or known as Good Manufacturing Practices (GMP) require a quality approach to manufacturing, enabling companies to minimize or eliminate instances of contamination, mix-ups, and errors. This in turn, protects the consumer from purchasing a product which is not effective or even dangerous. Failure of firms to comply with industrial GMP regulations can result in very serious consequences including recall, seizure, fines, and jail time.

COURSE OBJECTIVE

The objectives of the program are mainly to provide the participants which are related to healthcare products a basic understanding of industrial good manufacturing practices in complying with related international and local guidelines and regulations meeting Islamic Syari'ah Law and Halalan Toyyiban. It will introduce the local Malaysian healthcare products main industry player to share their knowledge and successful story in manufacturing and introducing their product to the international market.
