UNPER (Unified National Photo Electoral Roll)

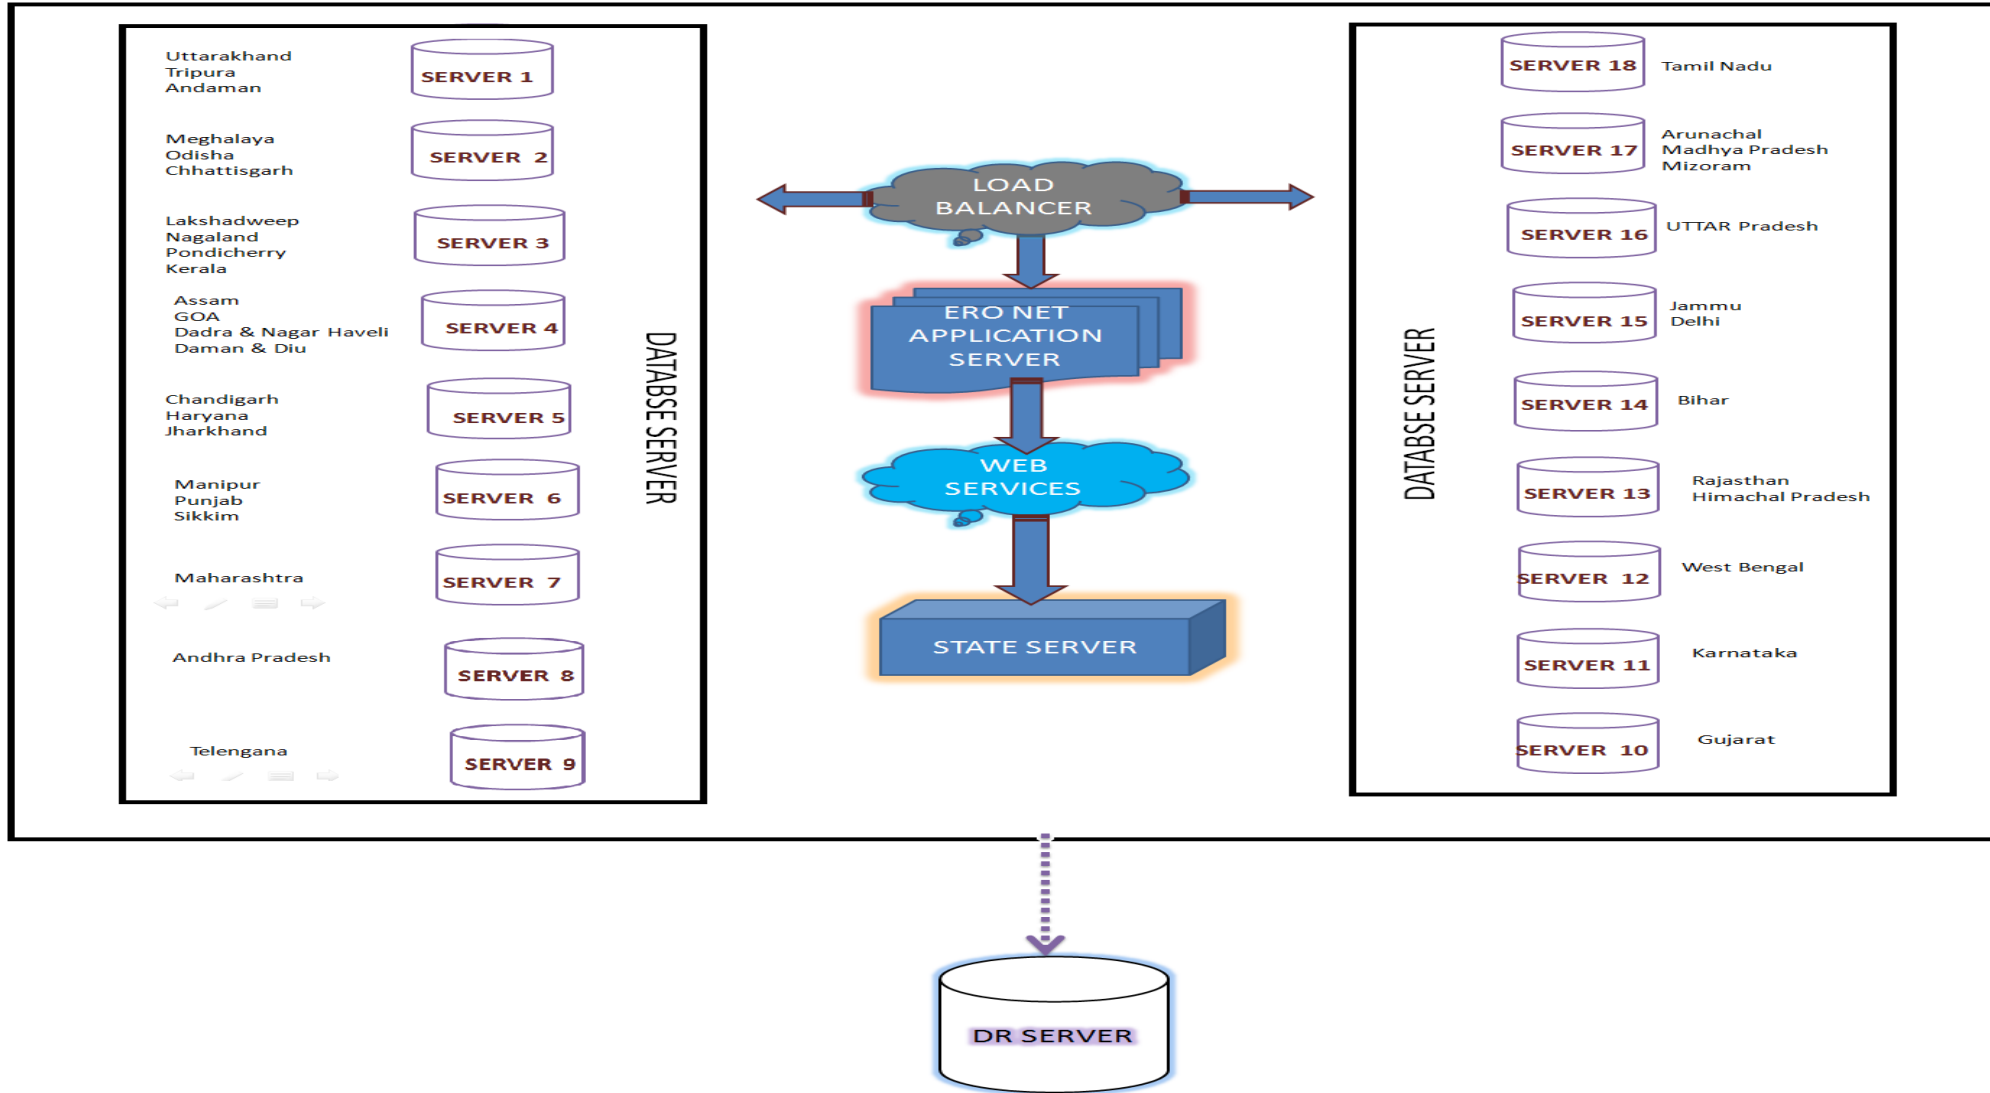

A Central data base of Electoral Roll, for achieving a control on to simultaneous addition and deletion, and bringing in similar procedures with direct monitoring by all tiers of higher officials, so as to reduce possibility of un-noticed errors to pop in within the Electoral Roll, a National Electoral Roll Data based acronym as “Unified National Photo Electoral Roll (UNPER)” was created. UNPER thus becomes a main data base on which **ERONET** system is developed to

- Migration of Entry is noticed and monitored clearly
- Provide accessibility to EROs to operate upon through well defined processes
