SUO Moto Action for ERO

There are possible multiple entries of an elector in electoral roll which can be reported by BLOs, by Stakeholders and by Other Sources. Checklist be generated & printed by ERO and handed over to BLO for field verification. Both persons are present then hearing notice will be generated and ERO will take decision.

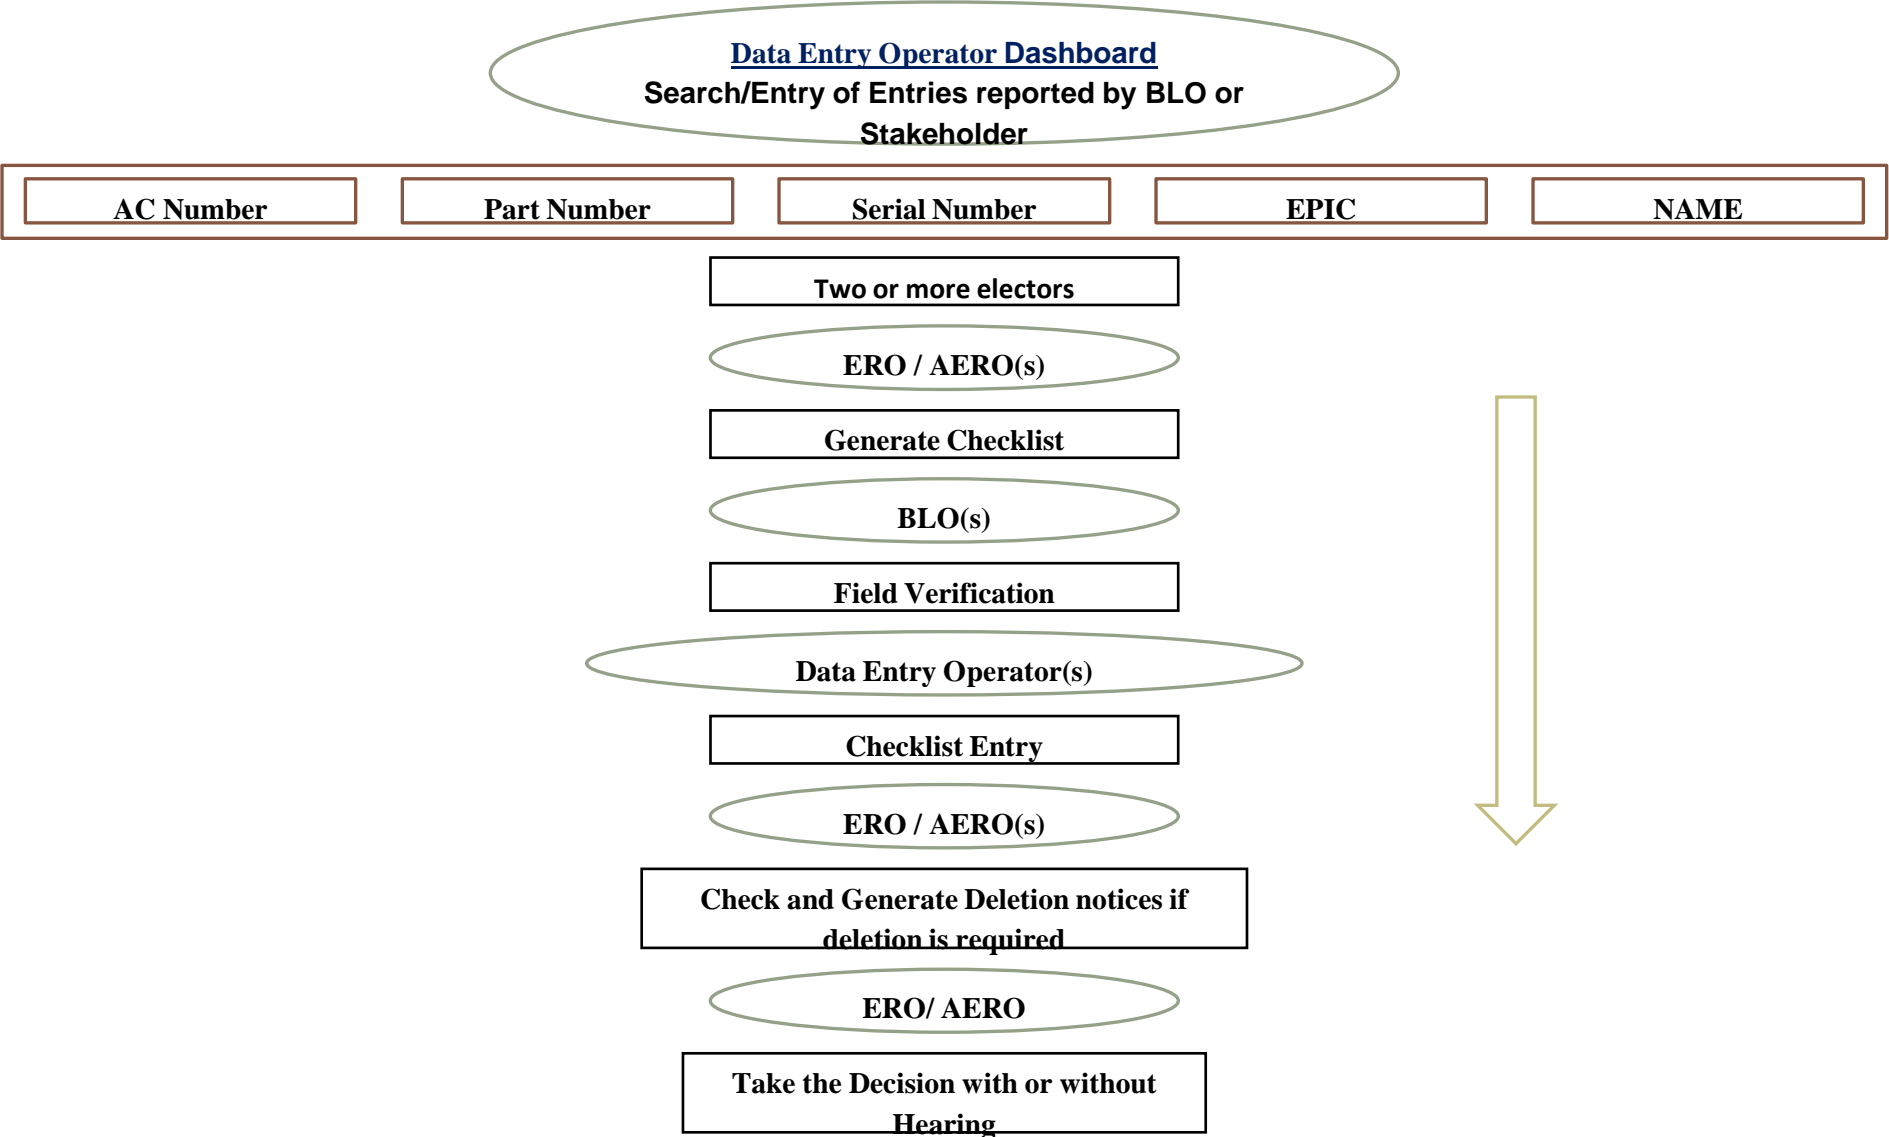

The screenshot displays the 'Electoral Registration Officer Network' interface. At the top, there is a header bar with the title and navigation icons. Below the header, a sidebar on the left contains various icons for navigation. The main content area features a search section with buttons for 'Show Record', 'Search Record', and 'Generated Notices'. Below these buttons, there are two dropdown menus: 'Part No.' with the value '1' and 'Status' with the value '-- Select Processing St'. A 'View' button with a right arrow is positioned to the right of these dropdowns. Below the search section, a message states 'Total Repeat / Duplicate Record Found : 1'. At the bottom, a table lists the identified duplicate entries.

All the records of electors will be listed Part wise in ERO login for quality checking of photograph. Click on “Details” to process the individual record. A pop up window will open up containing the photograph of elector (Note: pls make sure that Pop up is not blocked by the browser).

Now ERO has to verify that the Image Quality is good enough to identify elector. If, Yes, then record will be marked as verified as good quality. If, No, then BLO has to collect a good quality photograph from elector along with Form 8 and it will be processed. The reference number of that Form 8 will be filled here.

Migration of EPIC

The moment after digitization of form 6, checklist is generated for any existing elector who has applied for migration to a new Assembly constituency anywhere in Country, on the Dashboard of ERO of existing Assembly constituency that entry will be MARKED FOR MIGRATION.

This Status will be available as No. and as Alerts in Dashboard.

Entry will be frozen for any action till decision is taken on the Form 6 by ERO of new place.

On accepting the request for inclusion by ERO of New AC, Entry Alert status will change to EPIC to BE Migrated.

ERO/AERO of new place need to press MIGRATE EPIC for the Entry immediately thereafter (3 days), so the New AC ERO may update ERoll with migrated existing EPIC No. of Elector.

ERO may get alert if EPIC not migrated in 3 days.

On 5th day DEO and 7th Day CEO will get alert if ERO does not migrate EPIC.

Tracking of all such time barred migration cases would be kept for Audit in MIS.
