Dr. Nipun Jindal, IAS
Director (DDT&G)

E:13105 DIT- F10/33/2019-IT SECTION-GoHP-158
Dated: -24-06-2026

Dear Sir,

I would like to inform you that the Department of Digital Technologies & Governance (DDT&G) has developed and implemented a number of governance-focused digital platforms and applications aimed at improving administrative efficiency, streamlining government processes, reducing paperwork, enhancing transparency, and enabling data-driven decision-making across the State.

To promote awareness and encourage wider adoption of these digital initiatives, a compendium containing brief details of the applications/ portals developed and maintained by DDT&G is enclosed herewith for your kind reference. The compendium provides an overview of the objectives, key features, implementation status of the various platforms currently operational in the State. Flagship initiatives such as the HimSeva Platform, Litigation Management System, Annual Performance Appraisal Report (APAR), HimAccess (Single Sign-On for Citizens as well as Government Employees), Him Upasthiti, Meeting Management System, Document Management System with AI feature and eOffice are already contributing significantly to streamlining administrative processes and enhancing the efficiency of government operations..

Supdt. I.T.

I shall be grateful if the enclosed compendium is disseminated amongst the concerned officers and offices under your jurisdiction/administrative control. The concerned offices may also be encouraged to leverage these digital platforms, wherever applicable, for improving administrative efficiency, simplifying workflows, reducing processing time and strengthening service delivery. The adoption of these platforms can substantially enhance the efficiency and effectiveness of day-to-day functioning of offices at all levels.

Yours Sincerely,

19/6/26

(Dr. Nipun Jindal)

Sh. Ashish Kumar Kohli, IAS
Director,
Directorate of School Education,
Lalpani, Shimla – 171001

Plz upload the information in the form of PDF on Website and Wats app groups.

1. HimParivar Portal

https://himparivar.hp.gov.in

HimParivar portal has been developed as a state-wide integrated family database covering all residents of the State to facilitate data-driven governance and targeted delivery of welfare schemes and public services.

HimParivar aims to establish a single source of truth for family data in the State, enabling efficient beneficiary identification and improving transparency and effectiveness in the delivery of government welfare schemes.

Key Features:

- Creation of a centralized and authentic family database of residents of HP.
- Unique HimParivar ID / Family ID assigned to each family.
- Digital HimParivar Card issued to families.
- Integration with various departmental databases for verification.
- Facility for updating family details, including members, income, occupation, and other socio-economic parameters.
- Integration with other e-Governance platforms for efficient delivery of government schemes.
- Use of the HimParivar database for beneficiary identification, eligibility verification, and targeting of government schemes and welfare programmes.

Status of Implementation: HimParivar has been implemented and integrated with the Family Register of Urban and Rural Population to establish a unified and integrated family database. A total of 19,15,474 families have been made available on HimParivar. HimParivar project was launched by the Hon'ble Chief Minister on 25th January 2025 on the occasion of Statehood Day.

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Being conducted for officials of concerned departments and field-level functionaries to familiarize them with the HimParivar system and its usage.

Handholding Support: Support is available through the MMSS Helpline for citizens and the Digital Helpline at 0177-3525101 for assistance and issue resolution.

2. Survey Platform (Mobile App)

Mobile App based Survey Platform has been developed under the HimParivar project to facilitate field-level data collection, verification, authentication, and data cleansing of departmental legacy schemes and beneficiary databases.

The Survey Platform aims to facilitate structured and reliable collection of field-level data and support migration and verification of legacy data of various departmental applications and linking the same with HimParivar platform. At present, it is being utilized by 9 departments.

Key Features:

- Mobile-based platform for real-time field data collection by field surveyors.
- Customizable survey design and forms tailored to departmental requirements.
- Aadhaar-based eKYC through OTP and Face Authentication (FaceAuth) for secure identity verification during surveys.
- Mobile-enabled data entry with document uploads and real-time synchronization, enabling efficient field-level survey operations.
- Migration and standardization of legacy departmental databases into digital format.

Status of Implementation: The Survey Platform has been deployed for real-time data collection and legacy data migration across multiple departments. This platform supports multiple ongoing surveys, including the Urban Family Survey, Farmer Database Survey, Building and Other Construction (BOC) Workers Survey, HPSEBL Survey (electricity connections), and Land Record Survey.

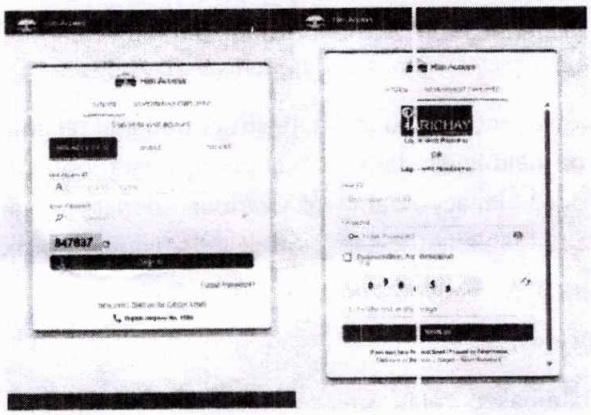

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Has been conducted for officials of the concerned departments and field-level surveyors to familiarize them with the Survey Platform and its functionalities.

Handholding Support: Support is available through Digital Helpline at 0177-3525101 for assistance and issue resolution.

3. HimAccess Single Sign On

https://himaccess.hp.gov.in

HimAccess has been developed as a state-wide Single Sign-On (SSO) platform Citizen as well as Government Employees for accessing various Government applications, portals, and digital services of the Government of Himachal Pradesh through a single unified authentication mechanism.

HimAccess platform aims to provide a secure, unified, and convenient authentication system for accessing multiple government services and applications. It simplifies user access, enhances security, and promotes interoperability across e-Governance platforms in the State.

Key Features:

- Provides a unified Single Sign-On (SSO) platform enabling citizens and Government employees to access multiple government services through a single secure login.
- Centralized identity and access management system for government services.
- Secure authentication mechanisms, including password-based login and multi-factor authentication.
- Role-based access control for departmental users and officials.
- Integrates with key **State digital platforms, including HimParivar**, ensuring seamless and efficient delivery of government services.

Status of Implementation: HimAccess SSO platform has been implemented and integrated with various government portals and applications, enabling users to access multiple services through a single login credential. At present, more than 7.5 lakh citizens and around 45,000 Government employees have been onboarded on the HimAccess platform.

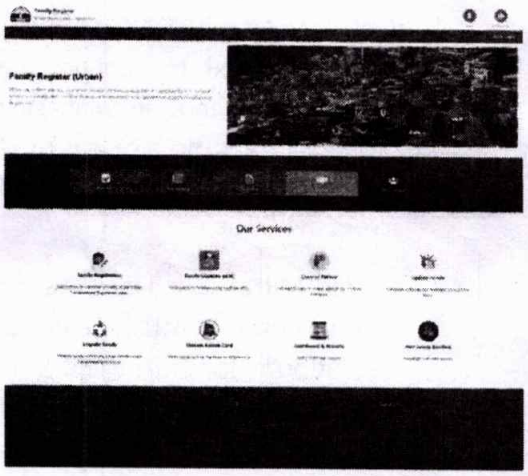

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Being conducted for departmental officials and technical teams to facilitate integration of departmental applications with the HimAccess SSO platform.

Handholding Support: Support is available through the Digital Helpline at 0177-3525101 for assistance related to HimAccess login and integration issues.

4. Urban Register

https://himparivar.hp.gov.in/urbanregister

Urban Family Register has been developed as a comprehensive digital family register for residents of urban areas of Himachal Pradesh. The platform facilitates Urban Development Department and Urban Local Bodies (ULBs) in maintaining household-level records.

The Family Register (Urban) is designed to establish a centralized and standardized digital system for maintaining verified family records for the urban population of Himachal Pradesh. Linkage of Family Register (Urban) with Family Register (Rural) has also been done in order to ensure that one person should get only one Member ID under HimParivar project.

Key Features:

- Enables registration and management of urban family records at ULBs through a unified web-based platform.
- Creation of family profiles, identification of head of family and updating of individual member details in a structured and standardized format.
- Integrated with Aadhaar for identity validation and PDS database for verification through ration card records, ensuring accurate and authenticated family data.
- Fully integrated with the eParivar (Rural) system to facilitate seamless migration and transfer of family records between rural and urban areas.
- Provides advanced search, update, and record tracking features, enabling efficient data management, and supporting improved delivery of government services.

Status of Implementation: Urban Register has been implemented in all 60 Urban Local Bodies (ULBs) of the State.

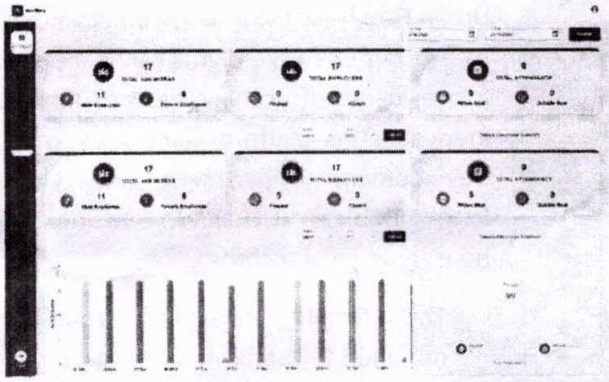

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Training and orientation sessions are conducted for officials of the concerned departments and Urban Local Bodies to familiarize them with the Urban Register system and its functionalities.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101

5. Van Mitra

https://himparivar.hp.gov.in/van-mitra

Van Mitra Attendance System has been developed to support the Forest Department in managing and monitoring the attendance of Van Mitra personnel deployed across the State.

Van Mitra Attendance System provides a centralized digital platform for managing and monitoring the attendance of Van Mitra personnel deployed across forest beats in Himachal Pradesh.

Key Features:

- Secure login using HimAccess mobile OTP authentication.
- Punch In / Punch Out based digital attendance for Van Mitra.
- Aadhaar based Face authentication with blink detection for secure verification.
- Location verification using current location and beat centre details.
- Capture of daily work type and remarks during Punch Out.
- Centralized monitoring of Van Mitra attendance and field activities.

Status of Implementation: The Van Mitra Attendance System was inaugurated by the Hon'ble Chief Minister on 01 June 2025 and is currently live and operational.

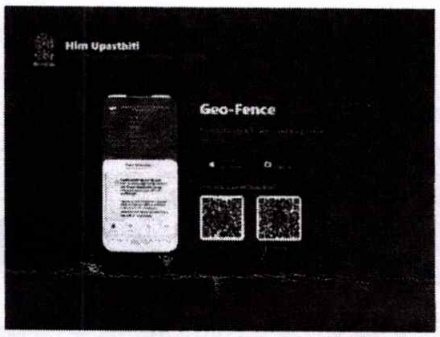

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Training and orientation sessions have been conducted for Van Mitra personnel and Forest Department officials to familiarize them with the Van Mitra Attendance System.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101.

6. HimUpasthiti

https://himparivar.hp.gov.in/himupasthiti

HimUpasthiti has been developed for Government Departments of Himachal Pradesh to facilitate digital attendance management of government employees through a centralized platform.

HimUpasthiti platform aims to digitize and streamline attendance management of government employees, ensuring transparency, accountability, and improved administrative efficiency.

Key Features:

- Mobile-based attendance system for marking employee attendance.
- Geo-tagging and time-stamping to ensure authenticity of attendance records.
- Aadhaar / mobile-based authentication for secure attendance marking.
- Real-time attendance monitoring through dashboards.
- Role-based access for departments, offices, and administrators.
- Automated attendance records and reports for monitoring employee presence and punctuality.
- Integration capability with other government HR or administrative systems.

Status of Implementation: The HimUpasthiti system has been implemented across various government departments and offices, enabling digital recording and monitoring of employee attendance.

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Training and orientation sessions are conducted for concerned departmental officials and employees to familiarize them with the HimUpasthiti system and its functionalities.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101.

7. HimSeva Platform

https://himseva.hp.gov.in

HimSeva portal is designed as a uniform service delivery platform for multiple departments of the Government of Himachal Pradesh to provide online G2C, G2B, and G2G services in an integrated and standardized manner.

HimSeva portal aims to digitize and streamline the delivery of citizen services by providing a single unified online platform where residents can apply for government services, track the status of their applications, and receive approvals without the need to visit government offices physically. The platform enhances transparency, efficiency, and accessibility in public service delivery.

Key Features:

- Online application for various certificates (e.g., Income Certificate, Caste Certificate, Domicile/ Bonafide Himachali Certificate, Residence Certificate, Character Certificate, etc.).
- Application tracking using acknowledgment number or registered mobile.
- Document upload, online payment (if applicable), and digital issuance/download of certificates.
- Integration with Lok Mitra Kendras (LMKs/Common Service Centers) for assisted access.
- Backend automation, workflow digitization, and process re-engineering for efficiency.
- Transparency with time-bound service delivery and status updates.

Status of Implementation: HimSeva portal is fully operational across the State, and 510 online services of various departments are currently available on the portal for citizens.

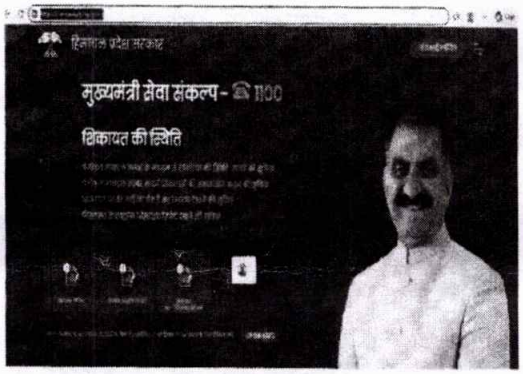

Nodal Officer: Sh. Vikas Chadha (Manager -IT)

Training / Orientation Conducted: Whenever a new service is developed on the portal, training is provided to the concerned department officials for processing and handling the applications through the system.

Handholding Support Available: Available through Toll-Free Citizen Helpline at 1800-180-8076 and Digital Helpline at 0177-3525101 for assistance and resolution of issues related to the HimSeva portal.

8. Mukhya Mantri Seva Sankalp Helpline @ 1100 (CM Sankalp)

https://cmsankalp.hp.gov.in

Mukhya Mantri Seva Sankalp Helpline has been designed as a centralized grievance redressal system for all departments of the Government of Himachal Pradesh.

The objective is to act as a one-stop shop for public grievance redressal, capturing citizen complaints, suggestions, and demands. It aims to enhance transparency, efficiency, citizen-centric governance, and quick resolution of issues across government departments in Himachal Pradesh.

Key features:

- Dedicated call centre with toll-free helpline 1100, operational 7:00 AM to 10:00 PM on all days.
- Multi-channel grievance registration through toll-free number (1100), Web Portal, and Mobile App.
- Unique reference number generated for every complaint for easy tracking.
- Real-time complaint status tracking for citizens and officials.
- Escalation mechanism for unresolved grievances within prescribed timelines.
- Complaints are closed only after confirmation of satisfaction from the citizen
- Role-based dashboards at State, District, and Department levels.

Status of implementation: Fully implemented and operational since launch in September 2019. More than 10,000 officers/ officials of 2 departments/ boards/ corporation are mapped in MMSS Helpline for grievance redressal.

Nodal Officer: Sh. Anil Semwal, Joint Director (IT)

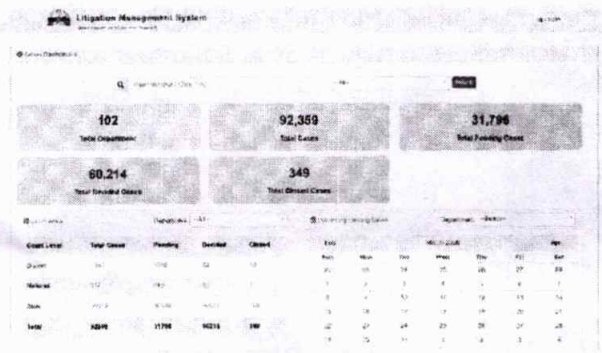

Training / Orientation Conducted: Training and orientation sessions have been conducted to ensure smooth implementation and effective utilization of the MMSS Helpline system.

Handholding support available: Available through:

- Dedicated MMSS Helpline Officer Helpdesk at 0177-3525100 and Digital Helpline at 0177-3535101.
- Guidelines/User Manual (available on CM Sankalp portal and DDTG site)
- Departmental Nodal Officers for coordination and support.

9. Litigation Management System (LMS)

https://lms.hp.gov.in

Litigation Management System (LMS)has been designed for all departments of the Government of Himachal Pradesh. This is a generic software for monitoring of court cases at departmental level. Using this software, Administrative Secretaries/ HoDs can easily monitor the status of the court case such as number of pending cases, timely filing of reply, personal presence required in a case, present status of case(s) etc.

Key Features:

- Generic software for Administrative Secretaries and Heads of Departments to track and managing pending cases. filing status, hearings, and cases requiring personal presence.
- Real time monitoring of Court Cases
- Facility for backlog/ legacy data entry
- Digitization of Court Cases Data of all Departments

Status of Implementation: The platform has been implemented and is being used by 102 departments/boards/ corporations

Nodal Officer: Sh. Chandan Parmar (Manager IT)

Training / Orientation Conducted: Training has been conducted for all the departments including AG office.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101.

10. Revenue Management System (RMS)

https://rms.hp.gov.in

Revenue Management System (RMS) is a digital solution for the Directorate of Land Records designed to modernize and streamline revenue court operations in Himachal Pradesh. As a part this initiative revenue court processes, case management, and record-keeping are digitizes aiming to enhance the efficiency and transparency of the judicial system.

Key Features:

- eFiling of Revenue case
- Online generation and publishing of Cause List with Advance Search
- Availability of Court Calendar of Revenue Officers and Advocates (upcoming
- Hearing)
- Access to Court Orders
- Generation of Summons and Availability of Summons at Tehsil Level
- Entry of Zimni Orders and Creation of Case History
- Pending Cases Reports
- MIS Report of Cases Category Wise (Nature of Cases)
- Fees Collections at Patwari Level

Status of Implementation: The platform has been implemented and is being used by the concerned department.

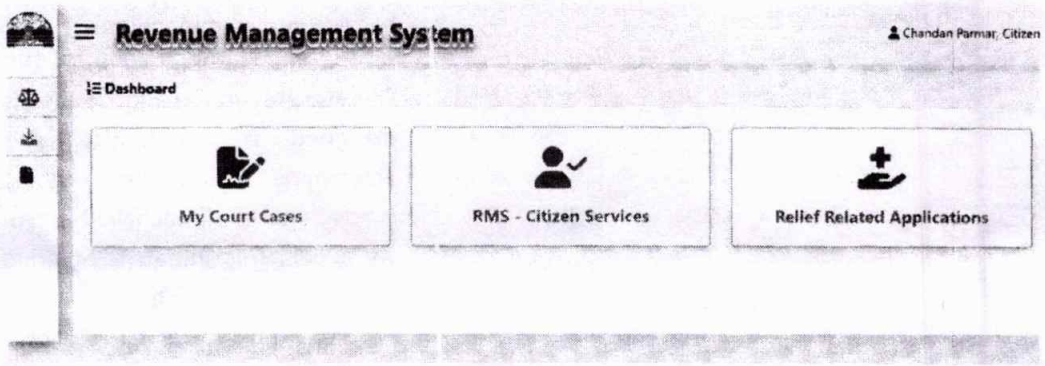

Nodal Officer: Sh. Chandan Parmar (Manager IT)

Training / Orientation Conducted: Training has been conducted for the department including Tehsildars and Patwaris.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101.

11. Revenue Relief Application Po tal

https://rms.hp.gov.in

Relief plays a crucial role in providing financial assistance to individuals and families affected by natural calamities. In Himachal Pradesh, the State Disaster Management Authority (SDMA) and the National Disaster Management Authority (NDMA) have allocated funds to offer support to those impacted by disasters. The concerned Sub-Divisional Officer (Civil) sanctions the relief amount as per the provisions of the Himachal Pradesh Relief Manual 2012. To streamline and enhance the relief management process, a Relief Module has been developed for the Directorate of Land Records.

Key Features:

- The system has the proper workflow management for Relief Applications.
- The applicants are able to view the application status of approval online.
- The system provides acknowledgements through emails and SMS
- System has unique username and password to access intended information as per access rights.
- The system generates appropriate MIS for higher authorities for approval and to make the status available online.

Status of Implementation: The platform has been implemented and is being used by the concerned department and citizens.

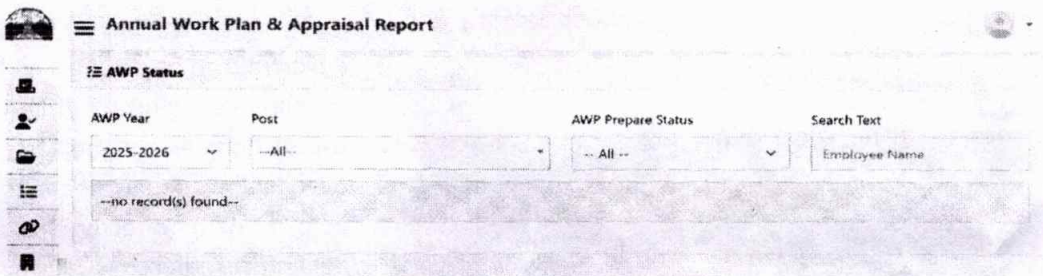

Nodal Officer: Sh. Chandan Parmar (Manager IT)

Training / Orientation Conducted: Training has been conducted to the department.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101.

12. Annual Performance Appraisal Report (APAR)

https://apar.hp.gov.in

APAR system aims to digitize the entire performance appraisal process from target setting to final acceptance through a standardized and transparent workflow. It enables real-time tracking, reduces processing time and administrative burden, and integrates with existing government authentication systems. The system also creates a centralized repository for performance data to support analytics, accountability, and objective performance evaluation. The system is intended for use by all the Departments in the State.

Key Features:

- APARs are initiated based on the Annual Work Plan/targets (both qualitative and quantitative) prepared by the concerned Reporting Authority.
- Targets (both qualitative and quantitative) can be revised for individual officers or cadres every year.
- A standardized APAR format will be applicable to all cadres of Group A, B employees.
- The Reporting, Reviewing, and Accepting Officers are decided while initiating the APARs.
- Multiple APARs, each with a minimum tenure of 3 months, can be initiated within a single Financial Year.

Status of Implementation: The platform has been implemented and is being used by a limited number of departments.

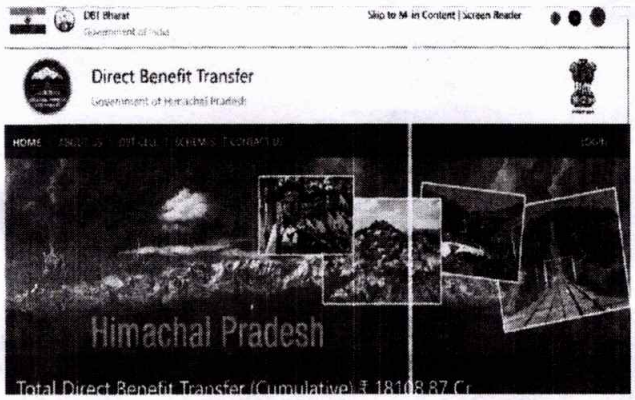

Nodal Officer: Sh. Chandan Parmar (Manager IT)

Training / Orientation Conducted: Training has been conducted to the departments who have started using the system.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101.

13. HP DBT (Direct Benefit Transfer) reporting Portal

https://dbtportal.hp.gov.in

DBT Portal has been developed to streamline and simplify the reporting of DBT transactions across the State by enabling departments to upload data directly from field offices, thereby reducing delays associated with manual reporting. The portal is integrated with the DBT Bharat Portal to ensure seamless data sharing and compliance with national reporting requirements. It also facilitates comprehensive monitoring and reporting of all DBT schemes implemented in the State.

Key Features:

- Enable departments to upload DBT transaction data directly from field offices, instead of only at the headquarters level.
- DBT Portal is integrated with DBT Bharat Portal.
- Comprehensive reporting of all DBT Schemes across the State.

Status of Implementation: The platform has been implemented and is being used by the concerned departments.

Nodal Officer: Sh. Chandan Parmar (Manager IT)

Training / Orientation Conducted: Training has been conducted for the concerned departments.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101.

14. Face Authentication App (PDS Aadhaar Face Auth) for PDS Beneficiaries

Aadhaar based Face Authentication Mobile App has been developed for the Department of Food Supplies and Consumer Affairs to establish the identity of beneficiaries through facial authentication. The objective is to ensure correct identification of PDS beneficiaries, reduce the risk of fraud in ration distribution, and provide a convenient authentication method for elderly residents and those facing difficulties with fingerprint authentication.

Key Features:

- Allows Face Authentication through ePOS at Fair Price Shop.
- Provides a method for establishing a person's identity using Face Aadhaar authentication.
- Reduces the risk of frauds in distribution of rations.
- Enables correct identification of beneficiaries.
- Face Authentication can be easily performed using mobile devices with resolution of 5 Mega Pixel or above.
- Provides an easy interface for authentication of old age residents and those with difficulty in fingerprint authentications.

Status of Implementation: The platform has been implemented and is being used by the concerned department.

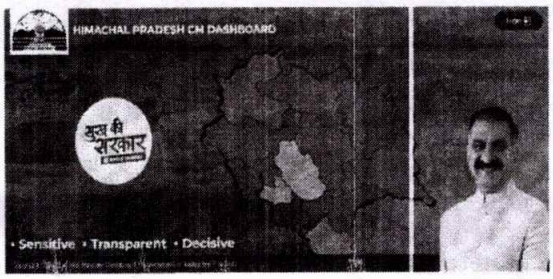

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Training has been conducted to the department.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101.

15. Chief Minister Dashboard

https://cmdashboard.hp.gov.in

The Chief Minister Dashboard has been developed by the Department to Drive Transparent and Efficient Governance and facilitate real-time monitoring of government schemes and development projects through defined Key Performance Indicators (KPIs). The dashboard was inaugurated by the Hon'ble Chief Minister on 01 March 2025, with 8 departments and 64 KPIs initially onboarded.

The dashboard was initially developed for 8 departments, i.e., HP-PWD, Jal Shakti, Women and Child Development, Education, Rural Development & Panchayati Raj, Health, Revenue and Tribal Development and will be progressively expanded to cover all departments, boards, and corporations.

Key Features:

- The platform enables data-driven decision-making
- Leads to improved transparency
- Allows for efficient monitoring of departmental performance.
- The Digital Good Governance Index (DGGI) has also been integrated on the same platform with multiple indicators for governance assessment.

Status of Implementation: The platform has been implemented and is being used by the concerned department.

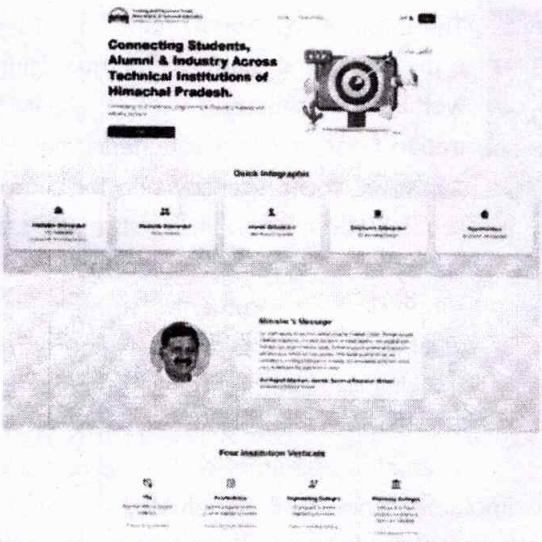

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Multiple rounds of training has been conducted for the 8 departments.

Handholding Support Available: Support is available through a dedicated team deployed in DDT&G.

16. Training and Placement Portal for Technical Education

https://himparivar.hp.gov.in/tech-edu

Training and Placement Portal has been developed for the Directorate of Technical Education (DTE) and its affiliated institutions across the state. The system serves Government Polytechnics, Engineering Colleges, Pharmacy Colleges, Industrial Training Institutes (ITIs), and other skill-development centers under the Directorate, providing a unified digital platform for managing training, placement, internship, and apprenticeship activities.

The portal is intended to centralize and streamline training, internship, apprenticeship, and placement activities across institutions under the Directorate of Technical Education. It helps connect students, institutions, and employers while enabling verified profiles, organized recruitment processes, and monitoring of placement outcomes.

Key Features:

- Unified portal for students, alumni, employers, and institutions (Integrated with HimAccess).
- Structured Students profiles with academics, skills, and experience.
- Employers can post jobs, internships, and apprenticeships.
- Training and Placement Officers can verify and screen student profiles before placements.
- Centralized coordination by the Training & Placement Cell.

Status of Implementation: The Training and Placement Portal is currently operational across technical institutions under the Directorate of Technical Education, Himachal Pradesh. The platform has on boarded 25,842 students from Government Polytechnics, Engineering Colleges, Pharmacy Colleges, and ITIs across the state.

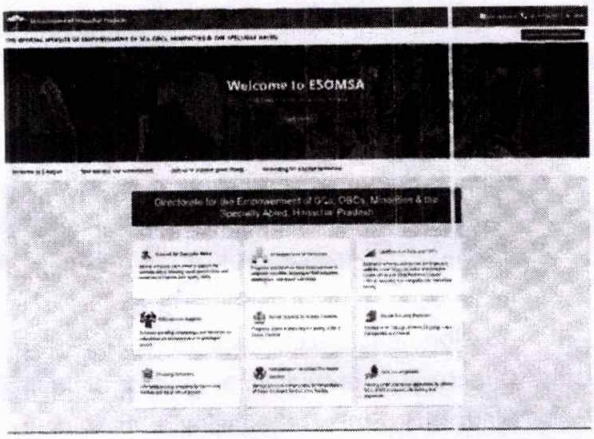

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Training has been provided.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101

17. eKalyan Portal

https://himparivar.hp.gov.in/ekalyan

The E-Kalyan (ESOMSA) Portal provides a unified digital platform for managing welfare schemes of ESOMA department. It enables beneficiaries to apply for social security pensions, and rehabilitation support through a centralized system integrated with HimAccess, document submission, eligibility verification, application tracking, and automated disbursement. The portal improves transparency, streamlines administrative processes, and enables efficient monitoring of scheme implementation and beneficiary payments across the state. The Portal also includes a disbursement module, real-time dashboards, and analytics to streamline application processing, automate pension release, and support transparent, data-driven delivery of government services.

Key Features:

- Enables registration and management of beneficiaries through a unified web-based platform integrated with HimAccess.
- Maintains detailed and verified beneficiary profiles, including family details and eligibility information.
- Automates scheme workflows with a disbursement module, handling onboarding, verification, approval, and pension release.
- Provides real-time dashboards and analytics for monitoring scheme implementation and decision-making.
- Offers citizen-facing access to check application status, verify eligibility, and track welfare benefits.

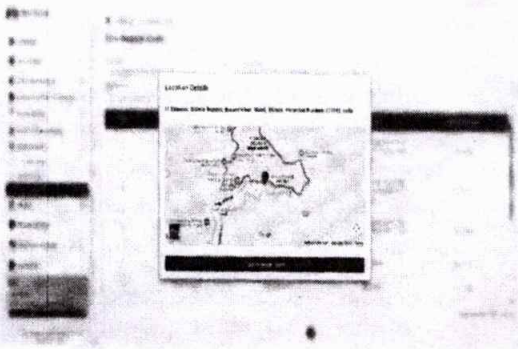

Status of Implementation: The E-Kalyan (ESOMSA) Portal is fully operational. To date, the platform has facilitated completion of 7,66,567 beneficiary surveys to assess eligibility and program coverage, while 78,074 surveys remain pending.

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Training and orientation sessions are conducted for departmental officials and field staff.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101

18. Assets Management App

Asset Mapping Mobile App helps Government Departments manage and track physical assets across offices and field locations through a centralized digital platform. It integrates with the HimAccess system for secure login using mobile number and OTP. Officials can fetch office details, map assets with automatic GPS location, and view or edit asset information such as name, type, and address. This system improves transparency, accountability, and efficient asset management across Himachal Pradesh.

The Asset Mapping App provides a centralized digital platform for recording, managing, and monitoring Government assets across offices and field locations in Himachal Pradesh. The system enables secure access through HimAccess, allows officials to map assets with GPS auto-population, view and update asset details, and maintain a standardized digital record of all assets.

Key Features:

- Secure login via HimAccess OTP.
- Map assets with GPS auto-fill.
- View asset details including name, type, and location.
- Edit and update asset records.
- Centralized monitoring for verification and validation.

Status of Implementation: The Asset Mapping App was inaugurated by the Hon'ble Chief Minister on 08 January 2026 and is currently live and operational.

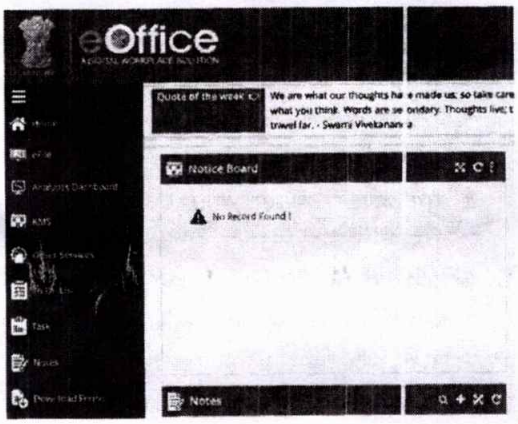

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Training and orientation sessions have been conducted for government officials and departmental staff to familiarize them with the Asset Mapping module, including HimAccess login, asset mapping, GPS verification, viewing and updating asset details, and centralized monitoring.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101.

19. eOffice

https://eoffice.hp.gov.in

eOffice is a step forward into an era of paperless administration in Himachal Pradesh. The beauty of going paperless is that it not only saves the environment but it also saves organizations a lot of money. The eOffice system enables the government to automate its internal processes, reduce paper usage, increase transparency, and improve the overall efficiency of the government's administrative procedures. The eOffice platform provides a range of features, including document management, file tracking, task management, workflow automation, eSignature, and communication tools. It is designed to facilitate easy collaboration among government officials, eliminate the need for physical movement of files, reduce the time and cost of administrative tasks, and improve the quality of decision-making.

Key Features:

- Secure login via Government email and HimAccess IDs.
- Application could be access from anywhere anytime by using VPN of Saccess (NIC) and Forti-client (DDT&G) through any network.
- Digitized diarization for correspondence.
- Faster and safe movement of files
- Centralized monitoring for HODs to track movement of files.

Status of Implementation: The eOffice was rolled out in the State in the year 2017 and is currently live and operational.

Nodal Officer: Sh. Rajeev Sharma (Additional Director DDT&G)

Training / Orientation Conducted: Training and orientation sessions have been conducted for government officials and departmental staff to familiarize them with the eOffice module, including Diarization, viewing and updating files and movement, and centralized monitoring of files to the HODs.

Handholding Support Available: Support is available through the Digital Helpline at 0177-3525101 and dedicated PMU is deployed for resolution of users queries.

20. Right of Way (RoW) Portal

The State Right of Way (RoW) Portal is aligned with the PM GatiShakti Portal as per the Government of India Telecommunications Right of Way (RoW) Rules, 2024 and is being centrally monitored by the Government of India. The portal provides investors with the facility to track the status of their applications online. The State Government has adopted the Telecommunications Right of Way (RoW) Rules, 2024, notified by the Government of India under the Telecommunication Act, 2023. These rules have been implemented in the State of Himachal Pradesh w.e.f. 01.01.2025 and shall continue to remain applicable until further orders. The same have been adopted by the Government of Himachal Pradesh vide Notification No. SITE-F05(7)/1/2017-IT SECTION-GoHP-(e-8767)-101 dated 10.12.2025.

21. Call Before u Dig (CBuD)

Call-Before-U-Dig (CBuD) is an innovative initiative by the Department of Telecommunications, Government of India to encourage minimal or no damage to underground assets while carrying out any digging activity. This online platform, available in the form of an easy-to-use mobile app as well as an online portal, facilitates smooth coordination between the digging agencies and underground utility asset owners to save the utilities from damages that may occur due to digging activities. To safeguard telecom infrastructure and other underground assets while conducting digging activities, the Government of India has launched an initiative called "Call Before U Dig". All the stakeholder departments have been provided trainings.

Utilization of the "Call Before U Dig (CBuD)" App : User IDs created

Sl. No.	Department Name	No. of User IDs
