PREFACE

Civil Registration is a continuous, permanent, compulsory recording of the occurrence and characteristics of vital events, like births, deaths and still births. In India the registration of births and deaths is carried out under provisions of the Registration of Birth and Death (RBD) Act, 1969 (amended in 2023) Registrar General of India (RGI) is entrusted with the responsibilities of coordinating and unifying the activities of the Chief Registrar of Births and Deaths. Chief Registrar of Births and Deaths in each States/UTs is the implementing authority. Registration of births and deaths is done by the local registrars appointed by the State Government under whose jurisdiction the event has taken place. It is the duty of the Chief Registrar to compile, publish and submit the Annual Statistical Report based on Civil Registration System to the State Government as well as Registrar General India.

As per Himachal Pradesh Registration of Births and Deaths (Amendment) Rules, 2024 all Births, Deaths and Still Births are to be reported within 21 days of its occurrence to the Registrar of the concerned local areas. Registration of Births and Deaths is being carried out in the State using the web based portal called dc.crsorgi.gov.in software developed by RGI. As soon as registration of birth or death is completed, the Registrar has to issue the certificate in Form No. 5 (Birth Certificate) or Form No. 6 (Death Certificate) as the case may be, containing the essential particulars of the event at free of cost to the applicant under Section 12 of RBD Act, 1969 (amended in 2023). Additional copies of the birth/death certificates may be obtained on payment of Rs. 50/- per copy under Section 17 of the RBD Act. By using the Statistical information entered in dc.crsorgi.gov.in software the annual report on the working of RBD Act is prepared.

REGISTRATION HIERARCHY

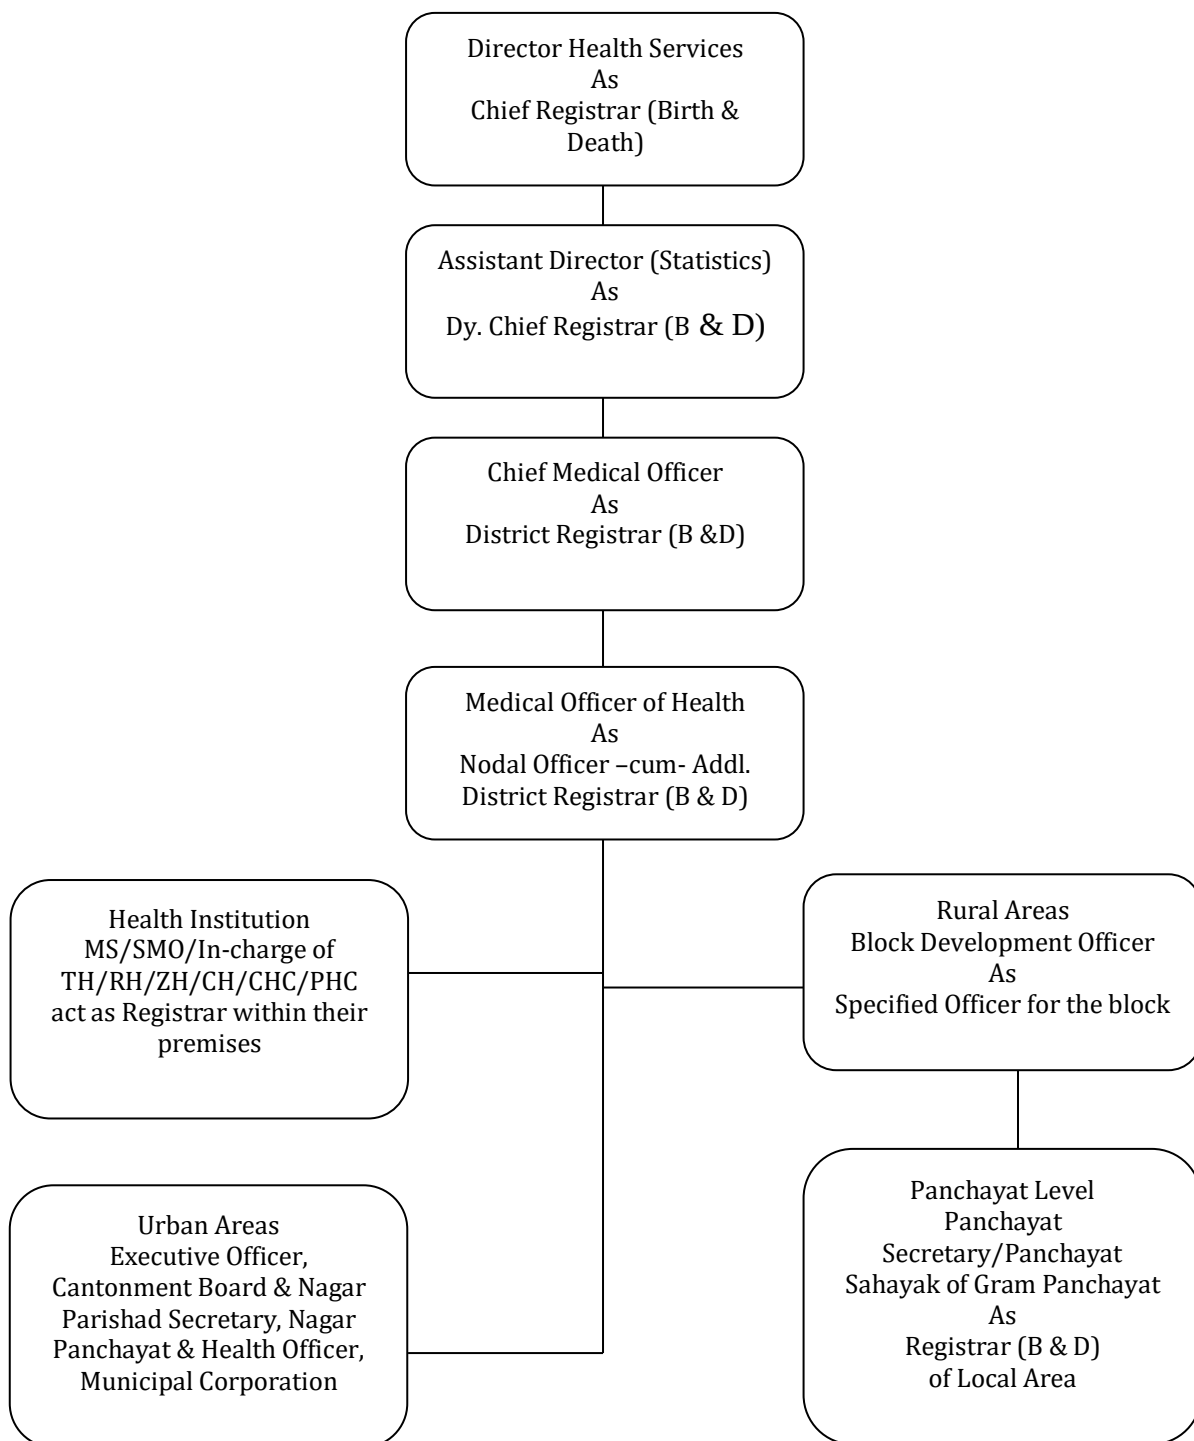

The Registration of Births and Deaths Act, 1969 was implemented in Himachal Pradesh on 1st April 1978 to ensure registration of all vital events with the local registrars. The Director of Health Services, Himachal Pradesh functions as the Chief Registrar of Births and Deaths in the State, and the Assistant Director (Statistics) assists him as the Deputy Chief Registrar (Births and Deaths). The Chief Registrar (Births and Deaths) works under the guidance of the Registrar General, India (RGI) — the central authority for registration of births and deaths at the national level.

The Chief Medical Officer of each district functions as the District Registrar of Births and Deaths, and the District Health Officer (Medical Officer of Health) assists the District Registrar (B&D) in discharging registration duties as the Additional District Registrar (B&D).

At the peripheral level, registration of births and deaths in rural and urban areas has been bifurcated. In urban areas, the Executive Officers of Nagar Parishads/Nagar Panchayats, Secretaries of Nagar Panchayats, Cantonment Boards, and the Corporation Health Officer of Municipal Corporation Shimla act as Registrars. In Government Health Institutions, the Medical Superintendent/Senior Medical Officer/In-charge of TH/RH/ZH/CH/CHC/PHC act as Registrars within their respective premises.

In rural areas, the Block Development Officer is the Specified Officer for the Development Block and is responsible for the implementation of the Act in his jurisdiction. The Panchayat Secretary serve as the Registrars (B&D) for the local area and Panchayat Sahayak serve as the Local Registrars for their respective Gram Panchayats, with the Panchayat Sahayak discharging registration duties in the absence of the Panchayat Secretary. These Registrars are further assisted by Health Workers (Male & Female), ASHA Workers, Anganwadi Workers, Government School Headmasters, and Traditional Birth Attendants (TBAs), who have been notified as Notifiers under the Registration of Births and Deaths Act, 1969 (Amended in 2023).

DIFFICULTIES ENCOUNTERED IN THE IMPLEMENTATION OF THIS ACT

Since the implementation of the amended Act and the transition to the revamped Civil Registration System (CRS) portal, various operational challenges have been observed. Hospitals and registrars often face portal slowdowns, login issues, and other technical errors during the registration of events, which adversely affect the timeliness and efficiency of the registration process.

In addition, the State's hilly terrain and the presence of several small sub-divisions pose difficulties such as poor internet connectivity, frequent power outages, and inadequate IT infrastructure at registration offices, making real-time online data entry challenging.

The introduction of new digital forms under the amended Act, inclusion of additional data fields (such as "history of illness"), and revised grievance/appeal procedures have created the need for comprehensive retraining of field staff. Lack of adequate training often results in incomplete or inaccurate data entry.

Further, families sometimes fail to report births or deaths within the statutory period of 21 days prescribed for free registration, due to lack of awareness or procedural difficulties. The amended Act and corresponding State Rules have modified certain procedures; however, delays and confusion in the practical implementation continue to persist.

To ensure the smooth and effective functioning of the Civil Registration System in the State, adequate financial resources are required, particularly for capacity building, training programmes, and Information, Education and Communication (IEC) activities (regarding B&D Amended, Act 2023). Public awareness, especially in rural and remote areas, remains low regarding the requirement for digital reporting of births and deaths, the 21-day registration window, and the significance of the birth certificate as the primary proof of date of birth for persons born on or after 1st October, 2023.

Moreover, the shortage of manpower in many health institutions across the State, including at the State and District headquarters, is adversely affecting routine operations under the Online CRS. This shortage continues to be a major obstacle in achieving 100% online registration of vital events.
